

Pebbles + Weeds

Dinosaur Jr.

Stay afloat
Pebbles and weeds grow in my throat
I can't keep this up for long
I know it shows There's always a ways to go
So what, there's always something wrong
Your thoughts are twisted and unkind
You should've scrubbed that from your mind They're here, no doubting it
The lights are wired
Dig it, you will find
Life's taken all the fragrant blows Couple of things are cool
Still most shit blows
Least it can be different
Then you know Power, feel the power
I'm in a state
My that black shit tastes great
So what's your problem with it's shit Stay afloat
Pebbles and weeds grow in my throat
I can't keep this up for long
I know it shows There's always a ways to go
So what, there's always something wrong
Your thoughts are twisted and unkind
You should've scrubbed that from your mind
Fearful and low
