

Walk With a Stranger

[Trixter](#)

like Sunday School
you live the golden rule
always daddy's little girl
say your prayers at night
you know what's wrong and right
locked inside your perfect world
cross the tracks and come with me
to the dark side of town
walk
walk with a stranger
see how good this bad boy can be
walk
walk with a stranger
come and walk with me
all your friends will say
that you should stay away
from a punk out on the streets
so let the fire burn
because it's time you learn
that here the champions will cheat ...oh yeah
when you slip inside of yourself
is there room for me
walk
walk with a stranger
see how good this bad boy can be
walk
walk with a stranger
come and walk with me
well mamma's wishin' well's too deep
but you've been hangin' from her rosary beads
breakin' hearts 'cause you're breakin' free
and breakin' hearts is reality
walk
walk with a stranger
see how good this bad boy can be
walk
walk with a stranger
come and walk with me
