

# Live Love Die (feat. Sirena)

## Dimitri Vangelis & Wyman

One in a million, two of a kind  
No need to worry,  
When all we got is time  
You know my name, so just say it loud  
Just say it loud  
You own my heart only for the night  
And we are young, we are restless killing time  
One in a million, two of a kind!  
I'm not gonna lose this feeling,  
I love the way I feel inside  
I'm not gonna lose this feeling,  
I love the way we live  
I love the way we live and die  
I'm not gonna lose this feeling  
I love the way we live  
I love the way we live and die  
I love the way we live  
I love the way we live and die  
I love the way we live and die!  
I'm not gonna lose this feeling  
I love the way we live  
I love the way we live and die  
I'm not gonna lose this feeling  
I love the way we live  
I love the way we live and die  
I love the way we live  
I love the way we live and die!  
I love the way we live and die!
