Nobodys Hero

Stiff Little Fingers

I think it's time we talked this over
I think you've taken this too far
I never wanted to be different
Didn't ask to be nobody's starTry and take control of it
'Cause what you see is what you get
Try and take control of it
And not meYou say there's talk of revolution, so what's new?
You say there's fighting in the air
You think that I've got the solutions
But do you really think that's fair?Try and take control of it
'Cause what you see is what you get
Try and take control of it
And not meDon't wanna be nobody's hero
Don't wanna be nobody's star
Don't wanna be nobody's hero
Get up, get out, be what you areYou think it's time you took me over
To do what you can't do yourself
But don't let heroes get your kicks for you
It's up to you and no one elseTry and take control of it
'Cause what you see is what you get
Try and take control of it
And you'll seeDon't wanna be nobody's hero
Don't wanna be nobody's star
Don't wanna be nobody's hero
Get up, get out, be what you areYou think you're nobody
And I get all the fun
But no one is a nobody
Everyone is someoneDon't wanna be nobody's hero
Don't wanna be nobody's star
Don't wanna be nobody's hero
Get up, get out, be what you are
Be what you are
