Fall in Line

Information Society

I've read the book
I've been the film
I've heard the song
now I live the life
you come from across the sea
and you shudder when you listen to me
but I know I'm all right
because I am american
I know my sitcoms
I stay informed
They smile at me on my TV
They make me feel so good
They'd come to me if they only could
I've read the book
