

Think of Me

Texas Hippie Coalition

Well it happens every time
That I let you cross my mind
We always hurt the ones we love the most
That's what happens when you're danger close And when you're down on bended knee
Are any of your prayers for me
Tell me we're not here crying
Are any of your tears shed for me Tell me when you hear our song
Does it hurt you to sing along
We're always haunted by hallowed ghost
That's what happens when you're danger close And when you're down on bended knee
Are any of your prayers for me
Tell me we're not here crying
Are any of your tears shed for me Why can't I get you out of my head
Why can't I just pretend that you're dead When you're laughing and Crying
Do you ever think of me When you're living and you're dying And when you're down on bended knee
Are any of your prayers for me
Tell me we're not here crying
Are any of your tears shed for me When you're laughing and Crying
Do you ever think of me
When you're living and you're dying
