

Onyx Is Back

Onyx

Yeah, aha, yeah

Onyx is back, and they can never, ever, ever be wack
Onyx is back, and they can never, ever, ever be wack
Onyx is back, and they can never, ever, ever be wack
Onyx is back, and they can never, ever, ever be wack

Yo, America is under attack, yo Onyx is back
Took a team out the hood, the whole crew got phat
A lot of hate 'cause I took Hollywood on my back

Keep it cruelly, grimy, no positive rap
You can tell by the way I got out the projects
You still here, your thuggin with the best

Don't worry if I got nines I blast text
You should worry if ya got shine I snatch next

War for real you don't want war for real
If it's real make ya Timbs up step up and feel
'Cause real killas do real things, but not you

You americ
