

Onyx Is Back

Onyx

Yeah, aha, yeah

Onyx is back, and they can never, ever, ever be wack

Onyx is back, and they can never, ever, ever be wack

Onyx is back, and they can never, ever, ever be wack

Onyx is back, and they can never, ever, ever be wack

Yo, America is under attack, yo Onyx is back

Took a team out the hood, the whole crew got phat

A lot of hate 'cause I took Hollywood on my back

Keep it cruelly, grimy, no positive rap

You can tell by the way I got out the projects

You still here, your thuggin with the best

Don't worry if I got nines I blast text

You should worry if ya got shine I snatch next

War for real you don't want war for real

If it's real make ya Timbs up step up and feel

'Cause real killas do real things, but not you

You americ
