

# Deep Inside My Pocket

## Ride

You think you know me inside out  
Think you know what I'm all about  
Here comes a slightly rude surprise While you were tryin' to control  
    'N' trying to grab my soul  
I blinked and saw right through ya I'm spellin' out all of my rules  
    Keepin' charge of all my tools  
I'm decidin' who gets inside When someone cares, it's nice to know  
    'Til that care turns to runnin' the show  
And then I'll turn on ya There is a secret place  
    It's deep inside my pocket  
    Never try tellin' me  
Who fits inside my pocket I know what I have to find  
    And I gotta whole lot of time  
Before I really reach my prize Gotta desire to mess around  
    It'd be cool just to fool around  
Maybe we'll mess together There is a secret place  
    It's deep inside my pocket  
    Never try tellin' me  
Who fits inside my pocket
