

# Get Out Of Here

## Bored Nothing

I'm fading out  
Like a melody  
Adjusting around  
To fit into  
Your mould  
Faith is a healer  
But as time passes by I fall deeper  
As I watch you keep on diggin' this hole  
Stand in the ground  
You paved for me  
Figuring out  
How to spring from  
Your hold  
Being mean (?) don't make me keener  
Am I fooling myself I don't need ya  
Watch this space I'm getting ready to go  
(Chorus)  
Wanna get out of here  
Away from you  
If it means dragging myself off my knees  
That's what I must do-ooooo  
Wanna get out of here  
That's how I feel  
Oh but the time that it takes me to leave (?)  
When I've dug in my he-e-eels  
I'm looking out  
  
For a remedy  
If I make mistakes  
Can they be  
My own  
All my life I've been a dreamer  
Now it's time to become a believer  
If I have to I will do this alo-oone  
(Chorus)  
Oh you've gotta believe what I'm saying  
I've gotta get out of heeere  
I've gotta get out of he-e-e-ere  
Gotta get out of here

Away from you  
If it means starting all over again  
That's what I must do-o-o-o-o-o-o-o  
Gotta get out of here  
Away from you  
If it means me dragging my dragging my dragging myself  
Dragging myself  
Gotta get out of here  
Away from you  
If it means starting all over again  
That's what I must do-o  
Gotta get out of here  
That's how I feel  
Oh but the time that it takes me to leave (?)  
While I dig in my he-e-eels
