Focus (feat. 21 Savage)

Bazzi

Slide with me, ride with me, get high with me
You know that I like it when you're next to me
Especially like sexually'Cause you know that I'm fuckin' with you heavilyYour energy is heavenly
So spend a second trippin' on my enemies
'Cause they envy me and my energy
You know what I'm focused onI'm feeling like a star
If you think it, then you are
Put the focus back on me, cut all negativity
Now I fuckin' live my dreams
Whatever I imagine
I know that shit can happen
Yeah, my energy on dragon
Burn it down and I start laughin'
Turn the ashes into magic, yeah, yeahTake another hit, I'm in the sky
Nothing takes me higher than the mind
Ask about this shit, I'll let you know
Yeah, this the type of shit that free your soulSlide with me, ride with me, get high with me
You know that I like it when you're next to me
Especially like sexually
'Cause you know that I'm fuckin' with you heavilyYour energy is heavenly
So spend a second trippin' on my enemies
'Cause they envy me and my energy
You know what I'm focused on
