The Greater Times

Electrelane

You say you don't know what love means anymore
Since I found you
I'm tearing down the walls without you
And I'm getting lost in all the plans that I heard you makeAbout the older times
About the greater timesOh I don't know, I don't know anyway
Look up
Look Up
I'll keep my eyes on you
Do you remember when you were a child thenAnd you laughed when you were a child then
There's no meaning anymore
We,re floating in the sky
And if you think that we are older now
It's just our heads are outterflies
Are you the one that I've been waiting for ?
You say you don't know what love means anymore
Since I 'found you
I'm tearing down the walls, the walls, the walls...
Are you the one that I've been waiting for ?
