

Live for More

Curt Anderson

I could fool a crowd but you see through it
I dress the part but you can see my heart
I can sing the words and go through the motions
But I was made to live for so much more Just to be a part of love
Just to be a part of everything you are
I could never give enough
But even though I'm broken from the start
All that I need is the faith to believe
And your mercy I receive
I'm gonna live for more I could lose myself in all the applause
Impress the ones who couldn't feed my soul
I confess it needs to be repeated
That I was made to live for so much more
Wanna live for so much more Just to be a part of love
Just to be a part of everything you are
I could never give enough
But even though I'm broken from the start
All that I need is the faith to believe
And your mercy I receive
I'm gonna live for more I'll live for more
I'll live for more Just to be a part of love
Just to be a part of everything you are
I could never give enough
But even though I'm broken from the start
All that I need is the faith to believe
And your mercy I receive
I'm gonna live for more
