

We Burn

Halloween

Climb down my pile
And again to the beat of my heart
You're so exiting
Take all the soul
I will give you as
much as you want Higher, much higher
Unbounced fire
Closer, come closer
Close to the core We burn, we burn I contaminate you
I like to pollute you with my
G- g- generations
Look into my eyes
And we melt into
on yearning mind
We climb the stages Higher, much higher
Unbounced fire
Closer, come closer
Close to the core We burn, we burn
Insanity, insanity
Never set me free Higher, much higher
Set me on fire
Closer, come closer
Close to the core We burn, we burn
Insanity, insanity
Never set me free
