Lickety Split

Spiderbait

It's a pity that you never dropped me a line
I can see that you never really had the timeYou wanna work it out
You wanna just pretend it's going to be alright, yeah
Alright, yeahIt's a pity that you never talked back to me
If you're shitty it's a pretty nice place to beYou wanna work it out
You wanna just pretend it's gonna be alright, yeah
Alright, yeahBut when we talk it out
You make me wanna scream and shoutIt's a pity that I'm never going back to you
Can't you see there's not a lot that you can doDon't wanna talk it out
Don't wanna just pretend it's gonna be alright, yeah
Alright, yeahBut when we talk it out
You make me wanna scream and shout
