

# The Marvelous Dream

**Damon Albarn**

Hurricane spitting tornado  
Growl over London today  
Brought some God fire to the stay.  
Demons towards Jerusalem  
The spirit comes upon a mighty way  
Felt some God fire in its way I call to the dance, now the party begun  
Alcohol, holiday, I'm a drug. strong  
Levitating you've jumped around May queen  
A time for revival or maybe just the marvelous dream. And the moon rises higher, can call me  
The end of the cycle has come again  
Oh, I am helpless innate.  
Awake in the matter next morning  
Empty your belly, I can't take my time on earth  
I am helpless, I'll ... I call to the dance, now the party begun  
Alcohol, holiday, I'm a drug... strong  
Organ and moon ... spirit side go swap your bed  
The lutes of your heart approve that you are not quite dead.
