

Cold Inside

B Story

Now I'm sitting here wondering where you are.
Up inside the sky I see a shooting star, and I wish, I wish you'd let me love you. An outsider in your own
hometown
Tellin' me you hope I know my way around and I do,
And I wish you'd let me love you. Oh, it's cold inside.
Oh, it's cold inside.
And I'm cold too. Been lookin for a way around
No getting through till your walls come down
But there's hope - a chance you could be happy You look great in black and white but I know what you really
wanna wear tonight
And you can, and you won't. Oh, it's cold inside.
Oh, it's cold inside.
I'm cold too. You taught me how to wear my colors.
I'll show you how to wear yours, too. Now I'm sitting here wondering where you are.
Up inside the sky I see a shooting star, and I wish, I wish you'd let me love you. I wish you'd let me love you.
