Reptile

Nine Inch Nails

She spreads herself wide open to let the insects in She leaves a trail of honey to show me where she's been She has the blood of reptile just underneath her skin Seeds from a thousand others drip down from withinOh my beautiful liar Oh my precious whore My disease, my infection I am so impureGive inDevils speak of the way in which she'll manifest Angels bleed from the tainted touch of my caress Need to contaminate, to alleviate this loneliness I now know the depths I reach are limitlessOh my beautiful liar Oh my precious whore My disease, my infection I am so impureOhh OhhOh my beautiful liar Oh my precious whore My disease, my infection I am so impureOh my beautiful liar Oh my precious whore My disease, my infection I am so impure
