

Take Me Down (feat. Little Big Town)

Vince Gill

Here you come again
With that wreckin' smile
The one that does me in every time
I wanna drink you in
And make you stay awhile
Wonder if your heart is racing just like mine? I know you know just what you do to me
I feel your eyes, they cut right through me You take me down every time you come around
And make me surrender for you
You found your way into every hiding place
And baby, you burn me to the ground
You take me down Every word you whisper
Turns me inside-out
Your hands are makin' memories on my skin
Kiss after kiss
You melt away the doubt
You got me where you want me
I'm giving in You take me down every time you come around
And make me surrender for you
You found your way into every hiding place
And baby, you burn me to the ground
You take me down And now you know just what you do to me
I'm undone by every way you move me Oh, I love the way you move me
You take me down You take me down every time you come around
And make me surrender for you
And you found your way into every hiding place
And baby, you burn me too You take me down every time you come around
And make me surrender for you
You found your way into every hiding place
And baby, you burn me to the ground
You take me down
