

Rocket Engines

Warrior Soul

Get down little scene mis-treater
You love but ya can't believe her
 Breeding the atomic freedom
 Burnt out like a dead reign
There's no time for Heaven You got everything ya wanted
Now, you're just a past re-formanceIn the bedroom wastelandTrip out on the fascination
 Blast off to the moon to pray on
 Winter freeze, all forever
You want but she won't it deliverIt's a bad love situation
 Rocket engines love and Coca-Cola
It's a bad love situation, situation lowGet down like a plastic preacher
 Your love's an elastic feature
 Joy school for those who make it
You're like an abandoned babyCorporate sin, god lover
 So what style, you're naked
 Place in time forever
Place the comet's thrillBeyond in an Avalon kingdom
 Light plays come and kiss the mourners
 Survive for the dead desire
Worship and destroy the fireIt's a bad love situation
 Rocket engines love and Coca-Cola
 It's a bad love situation
Rocket engines love and Coca-ColaWe don't need you
 We believed you
 We don't need you
You don't love me, babyFlash out of the lovers crying
Conscience in eternal blackoutCeaseless is the dream of crashing
 Backward to the call of screaming
Break off of the handle loversCreaking to the horror subject
 Message of the shorting shocker
Electric all matter bleedingIt's a bad love situation
 Rocket engines love and Coca-Cola
 It's a bad love situation
 Rocket engines love and Coca-Cola
