

# Lucky Numbers

[Matt Webb](#)

Born with the lucky numbers  
Sometimes it makes me wonder  
Outgrew the old green truck  
Some people just have all the luck  
Stop me if you've heard this before  
Don't need the weekend anymore  
Here's one to our good fortune  
Here's two for our devotion  
I'm free to lead this life I need  
Thank my lucky numbers  
Sometimes a class closes the door  
Sometimes a chance finds something more  
Sometimes a tab is worth asking for  
Thank mom and dad's trust in your core  
I'm free to lead this life I need  
Thank my lucky numbers  
Thank my lucky numbers for  
Stage fright and uprights, the bedroom on the other side  
For path-finding, mountain climbing time  
Goodnight and thanks for coming out  
Bright lights ignite without a doubt  
Walk through a young man's dream  
It's everything it seems  
I'm free to lead this life I need  
Thank my lucky numbers  
Thank my lucky numbers for  
Stage fright and uprights, the bedroom on the other side  
For path-finding, mountain climbing time  
Alright, alright, alright
