

# Lost Someone

James Brown

I said if you leave me I go crazy  
'Cause I know it's true now  
You got the power, and I want you to try me  
'Cause I don't mind  
Don't leave me bewildered  
'Cause this old heart can't stand no more  
And if you leave me , if you leave me, there's one thing I can't do now  
'Cause there's only one thing I can say  
There is only one thing I can do now  
There's only one thing I can say  
There's only one thing I can say I lost someone, my love  
Someone who's greater  
Than the stars above  
Someone who I need  
Someone who don't  
Let my heart bleed Someone that's the one  
That's the someone  
That's the someone that I lost Don't go to strangers  
Come on home to me  
I love you tomorrow  
I love you today Help me, help me  
I'm so weak  
Gee whiz, I love you  
I'm so weak  
I love you tomorrow I love you tomorrow  
I love you tomorrow  
I love you tomorrow Sometime I get a little trouble  
Sometime I get a little trouble  
But let me hear you saying yeah  
Let me hear you saying yeah  
Say a little bit louder  
Say a little bit louder I love you tomorrow  
I love  
I want you to come over  
I want you to come over  
I need your love so bad now  
I need your love so bad now  
I just want you, I love you tomorrow  
I love you tomorrow

I love you tomorrow  
I love you tomorrow  
I love you tomorrow  
I love you tomorrow  
I love you tomorrow  
I love you tomorrow  
I love you tomorrow  
I love you tomorrow

Love me

Love me

I'm so weak

I'm so weak Help me somebody

Help me somebody

Help me somebody

I love you tomorrow I, I lost someone

A million to one

Ten thousand people

Under my false sun

Who need someone Someone, the only one

That someone who needs someone now

I need someone to care for

Care for, just that someone now I got something I want tell everybody

And I got something I everybody to understand now

Y'Know we all make mistakes sometimes

And all the ways we can correct our mistakes

We got to try one more time

So I got sing this song to you one more time

I want you to know that I'm not singing this song for myself now

I'm not singing the song only for myself now

I'm sing it for you too

And if I say stuff that makes you feel good inside

When I say that little thing

I say that little part that might sting you in your heart now I want to hear your scream

I want to hear say ahhh I love you tomorrow

Like I love you today

I'm so weak

Don't take my heart away Come on, come on

Gee whiz, I love you

And don't go strangers

Come on home to me  
Come on home to me I don't you to go see my next door neighbor  
But I'll feel better if you come on home to me  
You don't have to tell me me  
But I believe somebody over here, loves someone  
And I believe somebody over here loves someone  
And I believe somebody over here loves someone I said it's getting a little cold outside  
I want you to know what I'm talking about  
I said it's getting a little cold outside  
And everybody need somebody, everybody need somebody  
Everybody need somebody You know I like to sing this song  
You know I like to sing this song  
It makes me think about good things  
It makes me think about good things  
It makes me think about good things I feel alright  
I feel so good I want to scream  
I want to scream  
I feel like I want to scream
