Coupe

Little G Fresh

(Chorus)
Imma go take what i want.
This is my chance i donâ€™t give what i got
You can go seek if imma be wrong
Hurry it up i donâ€™t want to take long
But umma be real with all of my dogs
I do not talk to the law, I do not talk to My flaws, I do not talk to the vlogs

(Uh)

(Verse 1)
Yeah, Im only the real
Everybody wanna go do it for the kill
Everybody wanna go do it for the deal
I never did that, I never will

(Like, Uh) (Yeah, Yeah, Uh)

I have the keys to the whip in the back way
Stay on the map and we get paid
GPS told me to turn that way,
but I don't turn that way
I do not listen to rich men
I cook it up in the kitchen
stir it up good for the chicken
stir it up good for the chicken

(Hook)
If only you knew, If only you knew
If you understand a G like me you wouldn't be through the pain I've been through like right now
You can not taking me down
If you be tryna taking you down
Everybody know that I'm taking it nowÂ

(Like Uh)

(Chorus)
Imma go take what i wantÂ
This is my chance i donâ€™t give what i gotÂ
You can go seek if imma be wrongÂ

Hurry it up i donâ€™t want to take longÂ
But umma be real with all of my dogs
I do not talk to the law, I do not talk to My flaws, I do not talk to the vlogs

(Uh)

I ride in a coupe, I ride in a coupe
Its only made for two
Then we will see
I take that shotgun side ball with GM3
I ride in a coupe, I ride in a coupe
I do not care what it does what it do
I do not care what it does what it do cause it does what it do (ya)

(Verse 2)
We stay grateful
making the money like paper
we aint stopping till we high as a scraper
take it away like erasers
razor blades
baking a cake like a baker
dollar per day like a day per
I make it like it is nothing
its something he'll never do, love me or fight it
High rise and raises, picking you up in a coupe and i'll take it
we loving the gape and the group
everybody say what it does what it do
but I'm waiting, I'm waiting, no hesitation debating the nation, I came when I caped him
And I made it,
I pull up, I pull up
The burgers on tables you know that I ate them
Two door Garage, sedan ain't time of for me
even though I got M3's
like Im a kid from 216 and 3
like four doors is not that lame
I work for the group not for the fame
I work for the group not for the name
I work for the group not for the name
not for the name

(Uh)
(Chorus)
Imma go take what i wantÂ
This is my chance i donâ€™t give what i gotÂ
You can go seek if imma be wrongÂ

Hurry it up i donâ€™t want to take longÂ
