# Dragons Ball

## Malachai

round brown up and down
without sound butterfly
see clown sitting down without ground,
octopi, sing bring in our king get up and be standing
for tonight is the night of the dragons ball
see the queen move unseen in her green candle light
the sequins in her skin shimmering in delight
the red stones on her bones on her throne calling
that tonight is the night of the dragons ball
dance away the control
that's the way to control
knee deep in her sleep bittersweet porcupine
bee stings in her wings in her rings occupy
the red blood on her gown on her crown falling
that tonight is the night of the dragons ball
dance away the control
that's the way to control
dance
