

# I Will Be Your Friend

Sade

I know that lately  
Things haven't been so good  
I've always said  
If I could ever help you, I wouldOoh hoo, ooh hoo  
I love you for a thousand years  
Ooh hoo, ooh hoo  
I'm here to wipe away the tearsI will be your friend  
Until the end of time  
I will be your friend  
I'm here to make you smileWhen your falling apart  
I pick up each piece and build a wall around your dream  
The punches to you heart  
Melt away when you never thought they'd heal'So trust in me'  
These are the words I tattoo on you  
If Hercules can't pick you up now  
Then I really am trueI will be your friend  
Until the end of time  
I will be your friend  
I'm here to make you smileOoh hoo, ooh hoo  
I love you for a thousand years  
Ooh hoo, ooh hoo  
I'm here to wipe away the tearsYou've got so much to give  
I'll tell you just when you need to know  
Get out and live  
Pick you up when you're feeling lowSo here's my hand  
Trust in me I really am true  
You've got to understand  
There's nothing I wouldn't doI will be your friend  
Until the end of time  
I will be your friend  
I'm here to make you smileI will be your friend  
Until the end of time  
I will be your friend  
I'm here to make you smileYou've got so much to give  
Get out and liveI will be your friend  
Until the end of time  
I will be your friend  
I'm here to make you smileThe punches to you heart  
Come on and take my hand

When you're falling apart  
Oh oh, you've got to understand
