Welcome to the Show (feat. Laleh)

[Adam Lambert](#)

You know I have a veil
All covered up, to myself
It's always there
Now they wanna know
How does it feel?Gonna let it show
I'm happy to
Entertain and share with you
It's hard to say
How your own thoughts can hurt youI'm gonna let them stare
They feel like me out thereSo welcome to the show
Bring on all the lights
Let it shine on you
We're together here tonightWelcome to the show
Welcome to my life
Welcome to the show
Welcome to my life
Welcome to my lifeI know I have my flaws
I pay the price but I'm grateful
You're letting me be myself
The good and the badI'm gonna let them stare
They feel like me out thereSo welcome to the show
Bring on all the lights
Let it shine on you
We're together here tonightWelcome to the show
Welcome to my life
Welcome to the show
Welcome to my life
Welcome to my lifeWelcome to my life
Welcome to my lifeI'm gonna let them stare
I'm gonna let you in
I'm gonna let them in
They feel like me out thereSo welcome to the show
Bring on all the lights
Let it shine on you
We're together here tonightWelcome to the show
Welcome to my life
Welcome to the show
Welcome to my life(Welcome to my life)
