

# Just Not Each Other

[William Fitzsimmons](#)

Walked back home from this disaster  
Saw your ghost under the plaster  
Heart's in throat, broken to pieces  
I'm coming homeLost my way, gave up my treasure  
Hid my heart, lost you forever  
There's flesh in you won't know her father  
I can't come homeLoved you first when we were children  
You broke my heart, all that's forgiven  
We lost our chance to love one another  
We'll love again but just not each otherLove again but just not each other  
Love again but just not each other  
Love again but just not each other  
Love again but just not each other
