

Behind Space

In Flames

Call me by my astral name
Breeding fear through wordless tongue
Heavenly thirst, unspeakable pain
Emptied from all human motion
Confront the faceless wrath Beckoning silent from a sphere behind space
Through twisted ruins of uncompleted dreams
Sights of towers reaching for moon
And clawing at the skies, they gonna pull it down Intensity, I feel the lava rushing through my veins
Stars are reforming to enter the fourth dimension
Beyond all galaxies, through timeless eons of frost Unearthly hunger, angels descent Beyond all galaxies,
through timeless eons of frost
