

Make No Mistake

Epidemic

Something is wrong
I think something is missing
I can't tell what side I am on
If everything is for my fortune
 If everything I exploit
 Then I've lost my name
 Nothing I say
 Can get it back for me
 All that I trade
 All that I gain
 Can't buy integrity
 Make no mistake
 It's hard to avoid
 It's easy to go ahead and join
 If I've lost my name
 Nothing I say
 Can get it back for me
 Make no mistake
 All that I've gained
 Can't buy integrity
 And what to I want
 And what do I need
 No reason for what I've become
 No escape from what I've become
