

Fallin' In Love

Monifah

I spent a lot of time
Looking for the right thing
In and out, around the world
Searching, I think I found it Fallin' in love
Hoping that you say you love me
I got all this love
When you get it, you got to keep it Fallin' in love
Hoping that you say you want me
I got all this love
When you get it, you got to keep it Sexually you seemed to be
Everything I wanted in a man
Treated me respectfully
Holding me, showing you care
Can it be, you and me
Making we happily endlessly
Baby yeah Fallin' in love
Hoping that you say you want me
I got all this love
When you get it, you got to keep it You know it gets hard
To let you go when you got to go
And I know you gotta go sometimes
But I can't get you off my mind
Put your hand around my waistline
And show me what your kisses taste like
Taste like sweet rain falling down Fallin' in love
Hoping that you say you love me
I got all this love
When you get it, you got to keep it If I close my eyes tonight
Just know that I love you forever
You are the sun, you are the joy in my life
And now that you are here
Let me let you know how I love you so
You're the only one I want forever
Since I've fallen in love with you Falling in love
Got to show you how I feel
To let you know that this love is real Falling in love
Got to show you just how I feel
To let you know that this love is real Falling in love
(Got to show you just how I feel)

I'm thinking of love
Since I've fallen in love with you
All this love
(To let you know that this love is real)Falling in love
(Got to show you just how I feel)
I'm thinking of love
Since I've fallen in love with you
All this love
(To let you know that this love is real)Falling in love
(Got to show you just how I feel)
I'm thinking of love
Since I've fallen in love with you
All this love
(To let you know that this love is real)
