

City of Denial

Adore Me Not

Back to the start!

Who am I, Who are you? - You've got the right to choose

Do not trust, Don't get lost. - Who am I, Who are you?

Fall apart to the start. - Back to the start, back to the start

Step aside, fall apart. - Back to the start

Back to the start! Struggling all these years

We've lost so much to stay right here

We finally came to realize to life on with the compromise

Finally came to realize that someone will

Pay the price to play Patience's gone away

We'll no longer stay in this

City of Denial

This city of decay Who am I and who are you? - You've got the right to choose

Do not trust and don't get lost. - Who am I, Who are you?

Just fall apart back to the start. - to the start back to the start

Just step aside, just fall apart Longing for the deal

We've lost so much to stay right here today Patience's gone away

We'll no longer stay in this

City of Denial

This city of decay Restart and redefine

By now the time has come to break away It comes to an end

You feel the love is dead

It comes to an end

You feel the love is dead

â€˜The love is dead!â€˜ Patience's gone away

We'll no longer stay in this

City of Denial

This city of decay

Patience's gone away

We'll no longer stay in this

City of Denial

This city of...
