Let It Go

Daley

Sober in a strangers bed blue sheets cold memories
Waiting for the ice to break
Looking at the clock again times face tells nothing
So tell me why I hesitate
Hesitate to say your name, say good morning bring you into my day
Oh will it be the same?
Take your hand or let it go cause now im so in love with love I don't know
But I know
Chorus:
Ive been here before
This back and forth
Its getting old, its getting old
Dont waste your time, just make up your mind or
Let it go
cause I don't wanna be
Sober in a strangers bed blue sheets cold memories
Sober in a strangers bed blue sheets cold memories
Three steps from the door, Im so close and I'm so far
From ending right back where I started
And your voice is in my memories I cant forget
Won't let me leave with no regret
So do I take your hand or let it go
cause now youre so in love with love you don't know
dont know no no no
Chorus:
Ive been here before
This back and forth
Its getting old, its getting old
Dont waste your time, just make up your mind or
Let it go
Living in a shadow of what we used to be
Ive had enough of chasing remnants of this love
It's like chasing shadows in the dark
Yeah
Repeat Chorus twice:
Ive been here before
This back and forth
Its getting old, its getting old
Dont waste your time, just make up your mind or

Let it go
