

# Down Through the Night (1996 Remastered Version)

## Hawkwind

Down down and down  
Down down and downAs we spin through the night  
With ever increasing might  
Down down and down  
Down down and downReturning volumes of sound  
Into the blackness we drown  
Round round and round  
Round round and roundAs we lay in our sleep  
The appointment we keep  
Down down and down  
Down down and downOnly the rushing is heard  
Onward flies the bird  
Deep deep and deep  
Must we sink in our sleepDown down and down  
Down down and down  
Returning volumes of sound  
Returning volumes of sound
