Take It Slow

Bobby Brown

I can't wait for the moment to kiss your tender lips
But you told me we should take it slow
I'm so in love with you, don't know what to do
And these really blow in my mind
And I know you know you got me going on
And you're all that I need
Let me get close to you
I'll take it slow... Oh...
Chorus
Slow, let's take it slow...You and me, baby...
Slow, slow...Slow..., hey, girl..
After finding you, baby, how could I ask for more
So I'm sending those roses, my love
And I want you to know what I feel inside
And you are always on my mind, girl
Yes, it's true to be, the things you do to me
It's got me begging for more, girl
Chorus
I'm gonna let the world know about it
How i could feel inside
'Cause anybody know what I'm talking about, baby, whoa..., come on...
Hook
Chorus
Slow, let's take it slow...You and me, baby..

Slow, slow...Slow...,yeah
Slow, let's take it slow...Can we take it slow...
Slow..., slow...
These grooves, break it down, break it down, break it down...
Breakdown
Yo, first time I laid eyes on you, baby
It's like I blew my mind, word
It was like, was like heaven from above, you know what I'm saying?
But now you see I got to have this written all over my face
I never thought love could be this way
You mean a lot to me, baby
I want you to be my girl
Can you do that?
Please, Do that, baby, please...

You for me, I for you
Girl, I know what to do, to you, to you, girl
To you, girl
I wanna tell the world, sing it
You for me, I for you
Girl, I know what to do, to you
To you...
I never thought...
Baby... Whoa..., let's take it
Chorus/Vamp Out
