# That Dude

## Avant

It started when we got a room with each other
I should've thought about it but one thing led to another
Knew about my friends and all my other lovers
Pushin' all the time like we're committed to one another
Oh, it's such a mental chase, I'm tired of savin' face
All I ever see is you upset with me
So many different questions, all type of suggestions
Don't mean to come off harsh or rude
But I'm that dude, you said when you met me
That you would accept me, don't try to correct me
'Cause I'm that dude, I can't apologize
You already knew, I'm just speakin' the truth
'Cause I'm that dude
(You said when you met me)
But I'm that dude
(You, you would accept me)
But I'm that dude
(You said when you met me)
I broke all your rules
(You, you would accept me)
I'm that dude
It was cool, but you started dealin' with emotions
You kept comin' back, right back 'cause you felt it was worth it
Goin' through a different phase, wanna slow it down, change my pace
But we had an understanding, what you want is too demanding

It's such a mental chase, I'm tired of savin' face
All I ever see is you upset with me
So many different questions, all type of suggestions
Don't mean to come off harsh or rude
But I'm that dude, you said when you met me
That you would accept me, don't try to correct me
'Cause I'm that dude, I can't apologize
You already knew, I'm just speakin' the truth
'Cause I'm that dude
(You said when you met me)
But I'm that dude
(You, you would accept me)
But I'm that dude

(You said when you met me)
I broke all your rules
(You, you would accept me)
I'm that
You said when you met me
That you would accept me, don't try to correct me
'Cause I'm that dude, I can't apologize
You already knew, I'm just speakin' the truth
I'm that dude
I'm that
