

# Angel Angel

## Syntec

First I saw you in the street  
I didn't dare to say a word  
I felt love and I felt heat  
But it didn't make my blood curl  
Then I saw into your eyes  
I didn't dare to say a thing  
I felt cold and realized  
a fallen angel without wings

(chorus)

Angel angel is it true  
Angel angel what can I do  
Angel angel tell me why  
Angel angel you're flying high  
Angel angel is it true  
Angel angel what can I do

Angel angel tell me why  
Angel angel you've flown too high

When I feel you close to me  
I shouldn't dare to touch your skin  
I try not to disagree  
But you are badly disciplined  
I got turned on all the same  
I shouldn't walk on broken glass  
Don't you try to be ashamed  
But things have come to such a pass

(chorus)

Angel angel say goodbye  
Angel angel you've flown too high

First I saw you in the street  
I didn't dare to say a word  
I felt love and I felt heat  
But it didn't make my blood curl  
Then I saw into your eyes  
I didn't dare to say a thing

I felt cold and realized  
a fallen angel without wings

(chorus)

Angel angel say goodbye  
Angel angel you've flown too high

Angel angel (repeats a bunch)

(chorus)

Angel angel say goodbye  
Angel angel you've flown too high

Angel angel (repeats a bunch)
