Pain

Biohazard

Agony--inside my head
Making me wish--wish I was dead
For all the dues in life that I have paid
I've been caught,
locked in a world of rage
I look inside myself,
I see a great big blank
I look around me
and there is no one to thank
I think about that crazy shit
that I have done
This game of life--can it be won?
Pain
Chorus
Pain--feel my agony
as it turns into my rage
In life full of anguish
can't you see I live in
Hell--becomes misery
metamorphasizing hate
I contemplate my demise
can't you feel my pain?
Searching for a better way
in a world with it's eyes closed (2x)
Hold your head up high
Chorus
