

Luminous Veil

Stardeath and White Dwarfs

Yeah you know it, we won't forget you
I don't show it, it's all I can do
You leave it alone, it's all that I want to
You're here on my phone, it's all that you could do
I can see it, it's all inside you
Don't repeat it, that's all I can do
You leave it alone, it's all that I want to
You're here on my phone, it's all that you could do
