

# You Can Get It

Ciara

404 612, hand me the phone, I'll put it in for you  
Find myself slow dancin' to the song  
See you watching, baby, I will put you on  
Get up on me and I might just try it on  
Tonight, you might just get this phone number 404 612, hand me the phone I'll put it in for you  
Running into you ain't no coincidence  
I've been watching you forever since And you can get it, you can get it, you can get it  
You can get it, you can get it, you can get it  
(Not him, not him, not him) You can get it, you can get it, you can get it  
You can get it, you can get it, you can get it  
(Not him, not him, not him, boy) You can get it, you can get it, you can get it  
You can get it, you can get it, you can get it  
(He can try, he can try but) You can get it, you can get it, you can get it  
You can get it, you can get it, you can get it For so long I been in love with you  
For so long, long, long, long, long, long  
For so long, long, long, long, long, long Oh, tryna keep it one hundred  
Because I'm not with the games, yo  
And I don't run around giving out info  
Not tryna be funny it's just a side note  
Otherwise I'm just fallin' for you 310 412  
You got the celly now, here's the Cali number too  
Running into you ain't no coincidence  
I song this part already but I'll sing it again for you You can get it, you can get it, you can get it  
You can get it, you can get it, you can get it  
(Not him, not him, not him) You can get it, you can get it, you can get it  
You can get it, you can get it, you can get it  
(Not him, not him, not him, boy) You can get it, you can get it, you can get it  
You can get it, you can get it, you can get it  
(He can try, he can try but) You can get it, you can get it, you can get it  
You can get it, you can get it, you can get it For so long I been in love with you Oh, if you ready to go  
We can kick this thing off like first order  
Baby, just let me know  
We can slide up outta here, ride up outta here No pressure, no pressure  
Baby, just let me show you my affection  
And you can get it, you can get it  
You can get it, you can get it, boy  
O-o-once you get it w-w-what you gon' do it with it, ey? You can get it, you can get it, you can get it  
You can get it, you can get it, you can get it  
(Not him, not him, not him) You can get it, you can get it, you can get it

You can get it, you can get it, you can get it  
(Not him, not him, not him, boy) You can get it, you can get it, you can get it  
You can get it, you can get it, you can get it  
You can get it, you can get it, you can get it  
You can get it, you can get it, you can get it For so long I been in love with you  
For so long, long, long, long, long, long  
For so long, long, long, long, long, long
