

# Runaway (Patrick Stump Remix)

## MSTRKRFT

Can't deal with it  
Hold it!  
I'm playing for all the sick in my heart  
It's rectified, lazy I tears us apart  
Can't deal with it  
Tears us apart  
Can't deal with it  
So I float all night to the slack of the moon  
I'm glowing real bright while I stare at the mirror  
Sending bullets after me  
Cool it, cool it, cool it down  
Can't deal with it  
I'm running out  
Hounds are barking at the back door  
Every now, now and then I look around  
And I hunker down on my floor  
Can't deal with it, can't deal with it  
Can't deal with it, can't deal with it  
Down on my floor  
Can't deal with it, can't deal with it  
Can't deal with it, can't deal with it  
So I float all night  
In the slack of the moon  
I'm glowing real bright while I stare at the mirror  
Sending bullets after me  
Cool it, cool it, cool it down  
Can't deal with it
