# She Loved The Devil Out Of Me

## Tracy Lawrence

You can't see a freight train coming with your back against the track
You can only take the wrong road so long before you can't come back
I was heartbroke and lonely, forgot what love was all about
But then just when I hit bottom she reached down and pulled me outLed me to the promised land
My rock of ages when I felt too weak to stand
I was blind and could not see, she rescued me
Lord that woman was my savior she loved the devil out of meI was once a believer till life got the best of me
Just a ship without an anchor adrift and lost at sea
Like the wind she came and filled my sails well and put me back on course
She was the lighthouse in the harbor that brought me back to shoreLed me to the promised land
My rock of ages when I felt too weak to stand
I was blind and could not see, she rescued me
Lord that woman was my savior she loved the devil out of meI was blind and could not see, she rescued me
Lord that woman was my savior she loved the devil out of me
I said that woman was my savior she loved the devil out of me
