

affirmation I & II

Prince

[Backing of heartbeat drum sound]How are u feeling 2day Mr Nelson?[Heartbeat drum increases in volume in response]I trust u are having a quick and enjoyable adjustment period

As u can see, we are communicating telepathically[Strings and echoes from Way Back Home begin]
(Telepathically - Telepathically)Which makes things move so much faster here

After u have completed the planned affirmation therapy

u will find this way of interaction far easierUntil I find my way back home [echo in background]You've probably felt many years in you're former life, u were separate from not only others, but even yourself.

Now u can see that was never the case

U are actually everything and anything that u can think of.

All of it is UUntil I find my way back home [echo x6 with lush string flourishes]Remember there really is only one destination, and that place is U

All of it, everything is U.["Way back home" chorus x2]
