

Another Bad Taste

Useless ID

Spent much time thinking about
What I'm gonna do without you
Now that all my friends are sleeping in I can find the time to call
This world wouldn't stop at all
Asking, "What have you done yesterday?" Got rid of problems but they just keep on getting big
I'm falling into this situation, I've been through
I'm hopin' it won't be that way with you Falling in love again
A good thing to be remembering
If it were true A secret to be kept inside
You're giving it another try
This time you are up against yourself
Do you wonder why? Everyone's dying to know
Another bad taste to this show
They hope to see you lose, it's how it is Got rid of problems but they just keep on getting big
I'm falling into this situation, I've been through
I'm hopin' it won't be that way with you Falling in love again
A good thing to be remembering
If it were true
