

# That's Just How She Cries

**Buddy & Julie Miller**

She is smiling  
Then she takes your hand  
And with a kiss she lies  
That's just how she criesShe is dancing  
Up above a flame  
And without wings she flies  
That's just how she criesThat's how she cries  
Without tears  
That's how she cries  
So no one hearsShe is talking  
But she speaks in code  
Like a broken heart replies  
'Cause that's just how she criesThat's how she cries  
Without tears  
That's how she cries  
So no one hears, no hearsShe is silent  
Without words she speaks  
So listen to her eyes  
'Cause that's just how she criesListen to her eyes  
You'll see how she cries  
That's just how she cries  
That's just how she cries
