

# Wash Away

## Chef Special

Float down stream, rivers of dreams  
Float down stream, catch your wings  
Heavens high, so you fly  
Catch your dreams in the sky  
But the glaciers have frozen your feet  
I can't wait for eternity  
And so you watched me wash away  
But maybe we'll catch up someday  
Maybe well catch up someday  
Sun sinks out of view  
Stars they shine changing hue  
But bright lights have blinded your sights  
They cant adjust when day turns to night  
And so you watched me wash away  
But maybe well catch up someday  
The castles we built were so tall  
They only left us further to fall  
And still I see them far away

But maybe we'll come back someday  
Maybe we'll come back someday  
Float down stream, rivers of dreams  
Float down stream, catch your wings  
The castles we built were so tall  
They only left us further to fall  
And still I see them far away  
Maybe well come back someday  
The castles we built were so tall  
They only left us further to fall  
And still I see them far away  
As I watch them wash away

Wash away  
Wash away  
Wash away  
Wash away
