Eatin' Dust

Fu Manchu

The road demon sees
Spinning last four speeds
Says let's roll
Inner state, time to goKing of the mountain screams
Pedal down, seven three
Driver rolled his eyes
Search light, they shineLand controller
All seer, all knower
Dual freak lies
Headfirst downsideIt's overblown
By now, they know
Five miles to go
In twenty years, they'll showEngines die
Slow paced, low ground
Crowd gathers near
What they saw? What they hear?Had a job to do
Right side, straight through
Light starts to rise
Some left, hell of a ride
