

Eatin' Dust

Fu Manchu

The road demon sees
Spinning last four speeds
Says let's roll
Inner state, time to go
King of the mountain screams
Pedal down, seven three
Driver rolled his eyes
Search light, they shine
Land controller
All seer, all knower
Dual freak lies
Headfirst downside
It's overblown
By now, they know
Five miles to go
In twenty years, they'll show
Engines die
Slow paced, low ground
Crowd gathers near
What they saw? What they hear?
Had a job to do
Right side, straight through
Light starts to rise
Some left, hell of a ride
