

When You Dance With Me

Rushlow

There's an ocean of stars and a sea of moonlight
Rainin' down on us tonight
And the wind through the willows is singin' that song
I wanna keep my arms around you all night long just holdin' on
Caught up in the motion of your every move
So lost in the moment, spinning, falling into you
I'm everywhere I wanna be, girl your love is all I see
When you dance with me
There's a magical moment when you take my hand
A chemistry I don't understand
The way our bodies start movin' in time
The way you move me blows my mind, you blow my mind
Caught up in the motion of your every move
So lost in the moment, spinning, falling into you
I'm everywhere I wanna be, girl your love is all I see
When you dance with me
Dance with me
How could I be so lucky
To have you dancin' with me?
Caught up in the motion of your every move
So lost in the moment, spinning, falling into you
I'm everywhere I wanna be, girl your love is all I see
When you dance with me
Dance with me
When you dance. when you dance with me
When you dance, your love is all I need
When you dance, when you dance with me
When you dance, your love is all I see
