

Come On

Mikhael Paskalev

Come on
You know that I am bad
when I get mad
you got a reason
reason to leav
I lost it back then
But I ain't losingCome on, come on, come on
Come here with your broken smile
and hang your head and cry
Come on, come on, come on
Come on, come on, come onCome on
I never told you you're my one and only woman
so you'd act like a child
I really don't mind
Love the way you cryCome on, come on, come on
Till death do us part
but you're ain't dying you're just crying
Come on, come on, come on
I'll kiss your watery eyesRemember that night when I saw
beauty in your eyes
so clear I had to see them cry
please girl
put your head low
Need to see you cry
don't wanna see you goCome on
with every step you take
you'll ben till you breakI love you
like crazy baby baby
So how come you run
you change your mind
and then you come
back come on back
till death do us part
but you're aint dying you're just cryingCome on, come on, come on, come on
I'll kiss your watery eyesRemember that night when I saw
beauty in your eyes
so clear I had to see them cry
please girl
put your head low

Need to see you cry
don't wanna see you goCome on
 Love is like a flame
 come on
I need your tears to cool the pain
