## **Mind Over Time**

## **Interpol**

I will still be up by fall I'll still be up by fall either way Still be up by fall I'll be still to hear the call either wayStreet of thought In all your bones Hold your place and Save your throne Lie awake supine and golden Wait for grace It's timeMind over time Mind over timeSleight of fate And borrowed clothes Songs of places No one knows Draped in lace we all lean over To greet the great It's timeMind over time Mind over timeStreet of thought In all your bones Hold your place And save your throne Lie awake supine and golden Greet the great its timeMind over time Mind over time It's mind over time It's your mind over time
